www.SysSense.com

About us

- Established in 2007
- One of the fastest growing IT, Security & ELV solution providers.
- Provides a comprehensive range of Low Current, IT & Security solutions and services.
- Highly qualified, certified, and experienced technical team
- Completed several multimillion ELV projects in the Emirates
- Partnership with major Brand Vendors for all ELV Products
- Qualified system integrator for Leading Consultants and Contractors

Mission

To provide high quality sustainable products & services that combine performance with efficiency, while establishing a successful relationship with our customers & our suppliers.

Vision

To be the top choice and renowned IT & ELV solutions provider in the Middle East.

SysSense سيس سينس

Corporate Philosophy

Company-wide Customer Focus

Exceeding customer expectations and earning their trust, which is the cornerstone of our success.

Assure Client Satisfaction

Identifying the various needs and developing top-notch solutions using creativity, know-how, and our profound experience.

Adhering to Project Management Standards

Clearly understanding the context and overall goals of the project, clarifying all requirements before selecting a solution, and objectively tracking progress

Applying the "Right" Technology

Using what works - not always the very latest technology and usually not the oldest. We aspire for efficiency and not a "one size fits all".
